Quick Muzzle® Sizing Guide

The muzzle should fit snugly around the snout for the most reliable bite control.

Because of the great size variety within a breed, the **END OF SNOUT CIRCUMFERENCE** is the most accurate measurement to find a comfortable, yet secure fit.

The **SNOUT LENGTH** from just below the eyes to the end of the snout will provide additional sizing accuracy.

The Original Quick Muzzle® For average-snouted breeds.

| SIZE | END OF SNOUT | MUZZLE LENGTH | APPROX. WEIGHT | SAMPLE BREEDS — For the average-size dog of that breed. |
|---------|--------------|---------------|----------------|---|
| X-Small | 4.5" | 1" | 5–10 lbs. | Sm. Toy Poodle, Bichon Frise, Maltese, Min. Pinscher, Papillon, Silky |
| Small | 5.5" | 1.25" | 10–25 lbs. | Miniature Poodle, Dachshund, Jack Russell & Other Small Terriers |
| Medium | 6.5" | 1.75" | 25–45 lbs. | Pinscher, Beagle, Welsh Corgi, Scottish, Other Mid-weight Terriers |
| Large | 7.5" | 2.25" | 45–60 lbs. | Siberian Husky, Dalmation, Samoyed, Irish Setter, Spaniels, Pointers |
| X-Large | 8.5" | 3" | 60–80 lbs. | Gordon Setter, German Shepherd, Doberman, Golden & other Retrievers |

Long-Snouted Designed for thin, long-snouted breeds.

| SIZE | END OF SNOUT | MUZZLE LENGTH | APPROX. WEIGHT | SAMPLE BREEDS |
|--------|--------------|---------------|----------------|---|
| Small | 4.5" | 2.5" | 1–25 lbs | Small Sheltie, Whippet, Poodle |
| Medium | 5.5" | 3" | 25–45 lbs. | Sheltie, Small Greyhound, Terrier |
| Large | 6.5" | 3.5" | 45–60 lbs. | Collie, Large Greyhound, Saluki, Afghan |

Pug-Nosed The form-fitting design for brachycephalic breeds.

| SIZE | APPROX. WT. | SAMPLE BREEDS |
|-------|-------------|--|
| Small | 5–12 lbs. | Pekingese, King Charles Spaniel, Japanese Chin |
| Large | 12–30 lbs. | Pug, Boston Terrier, Lhasa Apso*, Shih Tzu* |

*Or use Original Quick Muzzle®, X-Small or Small for longer snouted dogs.

IMPORTANT! Safe, Responsible Muzzle Use

NEVER Leave a Muzzled Pet Unattended

RESPONSIBLE USE: Please remember, the **QUICK MUZZLE®** is a temporary restraint designed to reduce the risk of bites, but as with any restraint, it isn't foolproof. A muzzle is to be used with another method of restraint, with the animal handler holding the ultimate responsibility for safe control.

SUPERVISED, SHORT-TERM USE: With a proper, snug fit, the animal's ability to pant is reduced, which could compromise the animal's natural cooling system. Under certain conditions, this could produce a life-threatening situation.
